October 2019 – National Ski Patrol / Subaru Ambassador

December 2019 – New Hampshire EMS Provider License

**Throughout my seven-year journey, in order to attain many of the certification and achievements that I reached, a great number of enhancement classes for both OEC and S&T were required, as well as online courses, lesson plan development, and supervised instructional. On top of that...maintaining all requirements by FEMA and Fire Safety to stay current and up to date on current protocols; clearly far to many to list here, in the case of continued education.
